Education

Maharaja Surajmal Institute of Technology	2025 – 2029
B.Tech, Electronics & Communication Engineering – First-Year CGPA: 8.82/10	New Delhi
Bal Bharati Public School, Old Rajinder Nagar	New Delhi
Class XII: 91% Class X: 94.2%	

Experience

Iqlipse	Jul 2026 – Aug 2026
Operations & Workflow Automation Intern	Remote

- Managed client job-application operations during a **1-month internship**, including employer outreach, application tracking, database updates, interview scheduling, and client communication.
- Coordinated** interview scheduling and client updates across active application pipelines while maintaining structured employer-response records.
- Identified limitations in the existing Mailmeteor workflow and independently **engineered MailPilot** to automate personalized outreach, campaign scheduling, follow-ups, and reply tracking.

Projects

MailPilot Python, FastAPI, Pydantic, Gmail API, Google OAuth	GitHub
--	--------

- Engineered** an outreach platform supporting **3 recipient-ingestion methods**—manual entry, CSV, and Google Sheets—with personalization, campaign scheduling, and configurable sending delays.
- Implemented** up to **4 threaded follow-ups**, automatic stopping after reply detection, **2 duplicate-recipient modes**, and a **3-process** frontend/backend/worker architecture.
- Synchronized** recipient-level campaign status and reply information with Google Sheets for structured outreach tracking.

StockSense AI Python, FastAPI, OpenCV, Gemini, Groq, Vercel	Live Demo GitHub
---	--------------------

- Developed and deployed** an AI financial-analysis platform with **2 workflows**: financial-report analysis and computer-vision-based stock-chart analysis.
- Integrated 2 configurable LLM providers**, Gemini and Groq, to generate company summaries, key positives, risks, and future outlook from uploaded financial reports.
- Implemented** an OpenCV pipeline detecting **9 technical chart patterns** and returning Bullish/Bearish/Neutral signals with confidence levels.
- Exposed** FastAPI endpoints for PDF and chart-analysis inference with structured API responses.

Offline Indian Sign Language Translator Android, Computer Vision, On-Device AI	GitHub
--	--------

- Created** a real-time, fully offline Android gesture-recognition application supporting **32 outputs: 26 alphabet signs and 6 fixed-word gestures**.
- Designed** stabilization and cooldown logic to reduce prediction flicker and supported **2 inference delegates**—CPU and GPU—for device-side execution.
- Added** sentence-management controls for inserting letters, spaces, deleting characters, and clearing translated text.

Technical Skills

Programming:	Python, JavaScript, HTML, CSS
Data & Machine Learning:	NumPy, Pandas, Scikit-learn, EDA, data cleaning, feature engineering, regression, classification, KNN, Naive Bayes, SVM, decision trees, Random Forest, AdaBoost, Gradient Boosting, XGBoost, PCA, clustering, DBSCAN, cross-validation, ROC-AUC, hyperparameter tuning
Deep Learning:	PyTorch, tensors, Autograd, nn.Module, Dataset/DataLoader, ANN/MLP, CNN, RNN, LSTM, GRU, backpropagation, dropout, batch normalization, regularization, optimizers, GPU training, transfer learning, Optuna
NLP & Transformers:	text preprocessing, Bag of Words, TF-IDF, N-grams, Word2Vec, CBOW/Skip-gram, text classification, POS tagging, HMM/Viterbi, Seq2Seq, attention, self-attention, multi-head attention, positional encoding, Transformer architecture
Computer Vision:	OpenCV, image arrays/channels, grayscale conversion, resizing, cropping, ROI processing, image annotation, video/frame processing, CNN-based vision
Backend & ML Systems:	FastAPI, Pydantic, REST APIs, CRUD, request validation, ML model serving, Docker, Git, Vercel, Google OAuth, Gmail API, Google Sheets API, Gemini API, Groq API

Leadership

Deputy Head, AI/ML Department – Microsoft Student Chapter	Aug 2026 – Present
AI/ML Department Member	Sep 2025 – Aug 2026
PR & Sponsorship Head – e-Yantra Robotics Club	Aug 2026 – Present
PR & Sponsorship Member	Sep 2025 – Aug 2026
